

Voice Services – Hosted PBX

Your business never sits still. Your employees may be down the hall, across the nation, or even on the other side of the world. You need a communications solution that can help you keep in touch faster and more efficiently than ever. MegaNet Virtual Office PBX can take you there.

Virtual Office PBX Benefits include:

- **Amazing value** - You'll save up to 50% on your monthly phone bills, and up to 90% off the start up costs required of a traditional PBX solution (since you won't need one!)
- **Complete communications solution** - You could drive yourself crazy buying phones from one place, calling plans from another, and then dealing with outside fax, call recording, and conferencing services. Simplify your life. Get all these services on one bill, from one experienced and reliable provider.
- **Simple to use** - Virtual Office PBX has a flexible set up to get you the services that your business needs. All you need is an Internet connection to tap into all the great phone and features waiting for you with Virtual Office PBX.
- **Quality and reliability** - Superior call quality and reliability; with MegaNet it just works better. Flexible call routing means that power outages or inclement weather never impact inbound calls to your business.
- **One advanced phone system** - With employees anywhere, all of your workers are on the same advanced phone system. Whether they are remote, traveling, or across the hall, your employees can be an extension call away from each other.
