

## Voice Services – PRI and SIP Trunks

We understand that each business has specific calling needs, based on their usage and their local phone system hardware. Our Digital Voice packages are offered in both IP-PRI and SIP trunk options to ensure that customers and partners can find the best possible fit for their needs.

MegaNet Digital Voice packages can be used over any existing high quality Internet connection, or Digital Voice packages can be ordered with their own dedicated connection. All calling packages include local and nationwide long distance.\*

### IP-PRI Digital Voice package

Plan	Outbound Minutes	Included DIDs	Monthly Price	Price w/Internet**	Inbound Toll Free	Additional minutes
